

BHGS Geography Learning Journey

A01
Demonstrating knowledge and understanding

A02
Explanation, analysis and evaluation

A03
Application of Geographical skills.

FURTHER STUDY

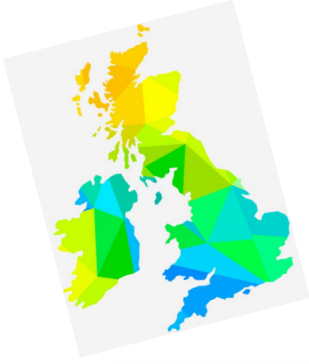

Environmental Science, Geology, Economics, Government and Politics, Biology, Ecology, History, Law, Maths Philosophy and Ethics, Psychology, Sociology, Physics, Economics and Business Studies

CAREER PATHS

Many career pathways:
Environmental management
Development and global issues
Policy and government
The business world
Travel, tourism and leisure
The physical and built environment

SKILLS

Blend of scientific analysis and human understanding develops skills in problem solving, logic, team work, listening, evidence based analysis, and decision making.

Key themes in Geography

Changing Places

Processes

Landscapes

Interdependence

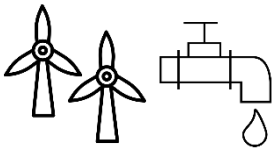

Sustainability

Geography...is about understanding the complexity of our world, appreciating the diversity of cultures that exists across continents. And in the end, it's about using all that knowledge to help bridge divides and bring people together.
Barak Obama

On to your fabulous future

Prepare for and sit your Geography GCSE with our support!

Decision making paper preparation – debating a current issue

Managing Global Resources

Managing global resources – Is there enough food, water and energy for everyone?

Managing Hazardous Environments

Are mitigation and adaption strategies effective in managing climate change?

What are the impacts of hurricanes and how can people prepare?

Hazards: Can tectonic hazards ever be managed successfully?

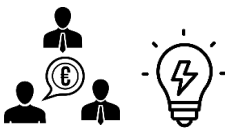

YEAR 11

Living World: Global Biomes

How do TRFs and Hot Deserts create opportunities and challenges?

Fieldwork in Sheringham for Paper 3

The Changing Economic World

How has the UK economy changed overtime?

Physical Landscapes: Rivers and Coasts

How have economic forces changed London, and do those changes benefit everyone?

Changing Urban Environments

How has the economy in Nigeria changed?

What are the impacts of Lagos's Rapid growth?

YEAR 10

How are Global Commons protected?

What is the future for Antarctica?

Why is Antarctica special?

How are glacial landscapes used?

How do glacial processes shape the land?

Is Russia's geography it's Friend or Enemy?

What role does Russia play in our lives?

What are the physical and human landscapes of Russia?

Our Unequal World

Why is there such inequality in our world and how can this be addressed?

The Restless Earth

Can we ever know enough about earthquakes to live safely?

YEAR 9

Changing UK Landscapes

How do river processes shape landscapes and can they be managed effectively?

How does geology shape the landscape?

Can tourism be sustainable?

YEAR 8

Global Biomes: The Tropical Rainforest

Why are tropical rainforests important and how are they threatened?

Innovation Africa

How are innovators in Africa transforming lives?

How has Globalisation changed our world?

How has globalisation changed global interactions?

How has globalisation changed the fashion industry?

What are the causes and effects of hurricanes?

Microclimates fieldwork

How do we measure the weather in the UK?

Issue: Plastic Pollution

Can plastic pollution in the ocean be managed?

How is Our Climate Changing?

How has climate change affected lives and what can we do?

Places Near and Far

What are Atlas and OS maps and how do we read them?

YEAR 7

Welcome to Geography at Bishop's Hatfield Girls' School

Achieving our potential and enjoying the journey
