

15th June 2018

Dear Parents / Carers,

I would like to draw your attention to a careers and applications event taking place on Saturday 13th October at Olympia, London.

[What Career Live?](#) helps young people decide what to do beyond school, whether it's an apprenticeship, further training or heading to university. The girls are already considering their options for after Year 13, and you may find that this gives them the opportunity to consider a variety of courses and pathways at one event.

At the show your daughter can meet with top employers as well as leading universities, to help her assess all her options in one place. There are also plenty of interactive features including a mock assessment centre, careers advice lounge, STEM Challenge, CV clinic and free presentations. There will be special sessions for parents on how to support and advise their young people. You may also be interested in ordering a copy of the magazine, which contains useful advice and information. This can be done at:

<https://www.whatcareerlive.co.uk/options-magazine>

Employers recruiting for their apprenticeship programmes at the event include J.P. Morgan, Network Rail, Rolls Royce, NHS, Warner Bros, Coca-Cola and many more. Universities at the event include Nottingham, Southampton, Warwick, University of Law, DeMontfort, Surrey, Roehampton, and more.

If your daughter wishes to attend you can register for the event [here](#);

Best wishes,

Mrs Langston

Coordinator of Work Related Learning
