Dear Parent/Carer,

GCSE Mathematics Revision Workshops

I'd like to make you aware that Mathematics revision workshops are being run by the Hertfordshire Mathematics team on a similar basis to the ones being offered for English GCSEs. Both Mathematics and English GCSE syllabi have become increasingly demanding with the new linear specifications and these workshops offer your daughter the opportunity to gain some extra support from qualified staff.

The Hertfordshire Mathematics team are offering a series of half day revision workshops which will take place at Samuel Ryder Academy in St Albans on alternative Saturdays to the English workshops during January, February and March.

These revision workshops are aimed specifically at Year 11 students and they will provide each pupil with exam strategies and guidance on how to succeed in specific topics and exam papers. They are also designed to help boost your daughter's confidence and enable her to feel 'exam ready'. In addition, your daughter will receive targeted revision resources to take away to support her independent study.

The half day courses are £45 each and pupils can select which ones they feel most suit their needs. They can choose from the following:

GCSE Maths Foundation Tier: Number	Saturday 19th January 2019, 9.30am-12.30pm
