

Getting into the right career is a challenge. We know that.

If you want to challenge yourself, learn new, relevant skills and get into a paying career from the start then we'd like to suggest that you find out a little more about our Apprenticeship opportunities at our drop in session on **Wednesday 3 April 4pm – 6pm** at the **Council Offices, Welwyn Garden City**.

During your apprenticeship you will enjoy a range of work experiences, take part in real projects whilst being supported by the knowledgeable and experienced colleagues. You will have the opportunity to become involved and use your skills whilst supporting the work of the council.

We will be offering opportunities in the following areas:

- Business Administration
- GIS / IT
- Customer Service
- Events
- Planning

To register your interest in attending and for further details please contact recruitment@welhat.gov.uk.

We have a number of apprentices working for council in a range of roles. Below are just some of the great things they have to say about their experience and how they came to the decision to become one of our apprentices. Our apprentices will be available to talk to about their experiences at the drop in session.

Deciding on your future can be pressuring so make some time to prioritise this.

I recommend starting an Apprenticeship as not only does it give you authentic workplace experience it also allows you to continue your education.

Apprenticeships don't just have to be an alternative to university, you can do both if you want to!

If you know what you want to do and University is the pathway for you, go for it. Although if you are unsure like I was, wait.
