July 2020

Dear Parents/Carers,

Year 9 Mathematics

During Year 8, your daughter has been taught in 1 of 3 bands, lower, middle or upper. In Year 9, we will be setting them into 6 groups based on ability. This means that all pupils will find their groups have changed. The changes will allow us to focus more precisely on each ability level. All Year 9 pupils will begin working towards their GCSE in Mathematics. Please note that at Bishop's we follow the AQA specification.

We have considered carefully your daughter's progress during Year 8, taking into account her classwork, homework, contributions in class and test results, in order to decide which group would suit her best.

We will continue to monitor your daughter's progress carefully and any further changes of group will be made, if necessary, and usually at the end of each term.

Please do not hesitate to contact me if you require any further information.

Yours sincerely,

Mrs Dudley

Head of Mathematics and Computing Faculty
