

7 Parr

Hello Year 7!

Welcome to Bishop's. As you start an exciting new chapter, I will be here to support you as your new Form Tutor, along with the rest of your new form. We will all look out for each other and help one another along the way.

I teach languages, specifically German and Spanish. I love visiting new countries and I have previously lived in Austria and Spain, where I taught too.

In my spare time I enjoy going out for long walks to explore new places and a couple of years ago I took up Ballroom and Latin dancing. I don't think I will be making an appearance on Strictly anytime soon though!

When I'm not out and about exploring, you'll find me in the kitchen, either cooking or baking.

I look forward to receiving your postcards and getting to know you all soon.

Miss Mizon

7 Seacole

Hello year 7 and welcome to Seacole!
My name is Mr. Stevens, and I will be your form tutor next year.

I cannot wait to read your postcards and find out a little more about you, and thought you might like to know a little bit more about me too. I am a Mathematics teacher here at Bishop's, and also teach some Physics (one of the three Sciences). I like everything Maths-related, including puzzles and problem-solving, and hope some of you will enjoy trying out some of my puzzles next year.

Before I became a teacher, I used to have a job as an 'Aeronautical Engineer', helping to design some of the Helicopters that are used by the Army. Once I even got to actually fly a Helicopter myself too. I also enjoy high-speed sports - I wonder if you can guess which kind?

I have 2 daughters who are just 2 and 5 years old. We enjoy going to the park, and they are learning how to ride their scooter and bike. We also enjoy flying our kite and swimming (recently we swam in the Sea, but it was iceeeey!).

I am sure you are looking forward to starting here at Bishop's in September. I expect you have all kinds of feelings about this - let me guess.. Excitement, nerves, confidence? Perhaps you are curious about what to expect? What clubs will you join? For example - you could join the year 7 Beginner's Badminton Club that I help to run, or maybe you would enjoy getting involved in Lego Robotics, crafting or perhaps you could be a History Detective? Let me tell you that I think you will really like it here at Bishop's - there are so many activities for you to do and get involved in, and so many people to meet and knowledge to gain.

One thing is for sure - If you put in lots of effort I am sure you will do really well at BHGS...so I hope you are ready for lots of hard work, but also an adventure!

7 Hadid

Hello 7 Hadid

I teach RE mixed in with a bit of Life Skills. My favourite religion to learn about and teach is Buddhism! Outside of being a teacher, I am currently learning Level 3 in British Sign Language which I run a club for too. Also, I love Kpop and Anime (I run an Anime club as well!)

I understand that going into secondary school can be a big change in your life, however the Bishop's community is like a family and are extremely supportive. You are going to be my first year 7 form, so I am looking forward to our journey together.

I cannot wait to meet you all and get to know you and your interests.

See you soon!

Miss Andreone

7 Austen

Hello Year 7

Welcome to Bishops - it's the start of a new part of your life with new experiences and friends and as your Form Tutor I will be there to help you and guide you in all things Bishops!

I am a specialist Year 7 Form Tutor as I have had a number of new to Bishop's forms over the years. So I have lots of experience of all things Year 7!

I joined BHGS in 2017 and I am a Humanities teacher covering your RE, Geography and History lessons. However I specialise in History.

I do understand what you are feeling this year as I had a Year 7 form last year and have children in primary and secondary school - so hear about school life from that side too!

I have four children so I am very busy, but in any spare time I run and play table tennis!

I look forward to meeting you all and hearing all about you from your "postcards".

Mrs Higgins

7 Franklin

"Hello Year 7!"

Welcome to Bishop's!

As you start an exciting new chapter, I will be here to support you as your Form Tutor, along with the rest of your new form. We will all look out for each other, have lots of fun and eat biscuits!

I am the Head of Biology and the Head of House Franklin. I teach science from year 7 all the way through to year 13. I have 3 children who keep me very busy and 2 noisy dogs! I look forward to receiving your postcards and getting to know you all soon.

Dr Bune
