Yr 9 Bronze Industrial Cadets 2024 Application

Dear Parent/ Guardian,

Further to my assembly to Yr 9s, I send you details of Bronze Industrial Cadets. The Bronze Industrial Cadets programme is a ten-week themed STEM (Science, Technology, Engineering and Technology) project for Yr 9 students developed by the Engineering Development Trust which has King Charles III as its patron (<https://www.etrust.org.uk/industrial-cadets>).

Students who participated in the programme last year had to work hard but their experiences were very enjoyable and rewarding. They gained many skills, all of which will help with potential universities and employers; such as working as a team, problem solving and gaining insight to the real world of STEM. Through their experiences, Industrial cadet students gain excellent public examination results as they realise the context in which their studies will help them achieve their future aspirations. Students gain experiences which will empower them to make informed decisions about their Key Stage 4 options, as well as, A' Level subjects.

To be considered for this project please ask your daughter to complete the form given below. Please note that your daughter will need to commit at least one hour per week after school, and one lunchtime, day and time to be confirmed in February. Furthermore, there may be a payment towards the project fee no more than £30 - your daughter will be informed of the exact cost asap. If your child is in receipt of Pupil Premium and you require some financial support for your child to be involved please email Mrs Jackson at mjackson@bishophatfield.herts.sch.uk.

If your daughter wants to know further details she can ask me, Dr Bune, Mr Short or last year's Industrial Cadets participants.

The applications are open to all. If your daughter is interested please encourage her to fill in the application form which includes a section for you to give your permission. There are limited places so those applications that were successful will be informed on **Monday 15th January 2024**.

Please let me have your daughter's application no later than **Thursday 11th January 2024**.

Best wishes for the New Year

Dr Lota

Science & Chemistry Teacher
